### **Health & Safety Policy**

#### **Introduction**

The Health and Safety Policy and the related management of health and safety appendices detail measures and procedures to maintain the well-being of everybody at King's College Latvia.(KCL)

#### **Health and Safety Statement**

KCL attaches the utmost importance to the safety, health and welfare of its employees and pupils. The KCL endeavours to comply with the provisions of the Health and Safety at Work Act 1974 and all subsequent regulations, including those implementing EC Directives. KCL is fully compliant with the Latvian Health and Safety Regulations.

King's Group bears ultimate responsibility for the leadership and day to day responsibilities are delegated to the Head Teacher and the Health & Safety Officer.

The management team will take steps so far as is reasonably practicable to ensure that the workplace is a safe and healthy environment in which its employees, pupils, contractors and other persons affected by the KCL operations can work.

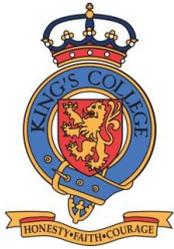

The management team will make the necessary assessments, identify safety training and provide information and supervision for employees at all levels. It will consult on a regular basis with all employees with regards to health and safety issues. It will provide the necessary safety devices and protective clothing, provided that a safer working environment cannot be achieved by any other means.

#### **Aims**

KCL's work programmes will, so far as is reasonably practicable, adopt good safety practices. These will ensure:

- that all reasonable steps are taken to ensure the health, safety and welfare of all persons using the KCL premises;

---

All aspects of health and safety remain a leadership responsibility. However a safe and healthy workplace can only be achieved with the full co-operation of every employee.

Employees are duty bound to act responsibly and to do everything possible to prevent personal injury to themselves and to others. They must also safeguard all persons to whom KCL owes a duty of care: namely people who may come into contact with their work; pupils, parents, visitors etc. To achieve this, employees must:

- Obey all the safety rules and procedures, including the wearing of protective clothing and the use of protective devices if they are specified by the KCL risk assessments.
- Exercise their awareness, alertness, self-control and common sense at work.
- Report promptly to their Department Head or Health and Safety Officer all hazards, potential hazards, defects in equipment and any shortcomings in the school's work systems or procedures.

Employees should not be in any doubt that the KCL will apply disciplinary procedures to any employee who intentionally breaches KCL's health and safety policy. This includes any specific safe systems of work, instructions, training and procedures laid down for the protection of those involved in KCL's operations, and for those who may become involved in them.

### **Policy Review**

This policy will be regularly revised, by the Head Teacher and/or the Health and Safety Officer as necessary (but at a minimum of one year intervals). In conducting the policy reviews, due regard will be given to the following:

Planning- The elimination of risks in the workplace by careful selection and design of facilities, equipment and processes, together with effective control measures and training for employees.

If appropriate, the school will consider the risk to safety involved in:

- contractors in schools;
- vehicle movements within the school grounds;
- workplace arrangements, including maintenance;
